

Test Summary Report

Project Name: OrangeHRM – Login Module

Module Tested: Login Page

Tester: Simran Kumari

Testing Type: Manual Testing

Date of Execution: 18th to 20th June 2025

Environment: Web Browser (Chrome), www.orangeHRM.com

Tools Used: Excel (Test Cases, Bug Report)

✓ Test Objectives

- Verify the login functionality with valid and invalid credentials
 - Ensure proper error handling and field validation
 - Check UI elements like logo, input fields, buttons, and links
-

📋 Test Scope

- Login with valid credentials
 - Login with invalid/empty credentials
 - UI validation (logo visibility, password masking)
 - Field input restrictions (alphabets, special characters)
 - Forgot Password link functionality
-

📦 Test Deliverables

- ✓ Test Case Document (11 test cases)
 - ✓ Bug Report (3 bugs logged)
 - ✓ This Test Summary Report
-

Test Execution Summary

Metric	Count
Total Test Cases Executed	11
Test Cases Passed	8
Test Cases Failed	3
Bugs Logged	3

Defects Summary

Bug ID	Summary	Severity	Status
BUG001	Username field accepts numbers	Medium	Open
BUG002	Username accepted special characters	High	Open
BUG003	Forgot password link not working	High	Open

Conclusion

Login module testing was successfully conducted. Most test cases passed, ensuring that the core functionality is working. However, **3 critical issues** were identified and logged in the bug report. These issues are currently open and pending developer fixes. Once resolved, the bugs will be re-tested to verify the functionality.
